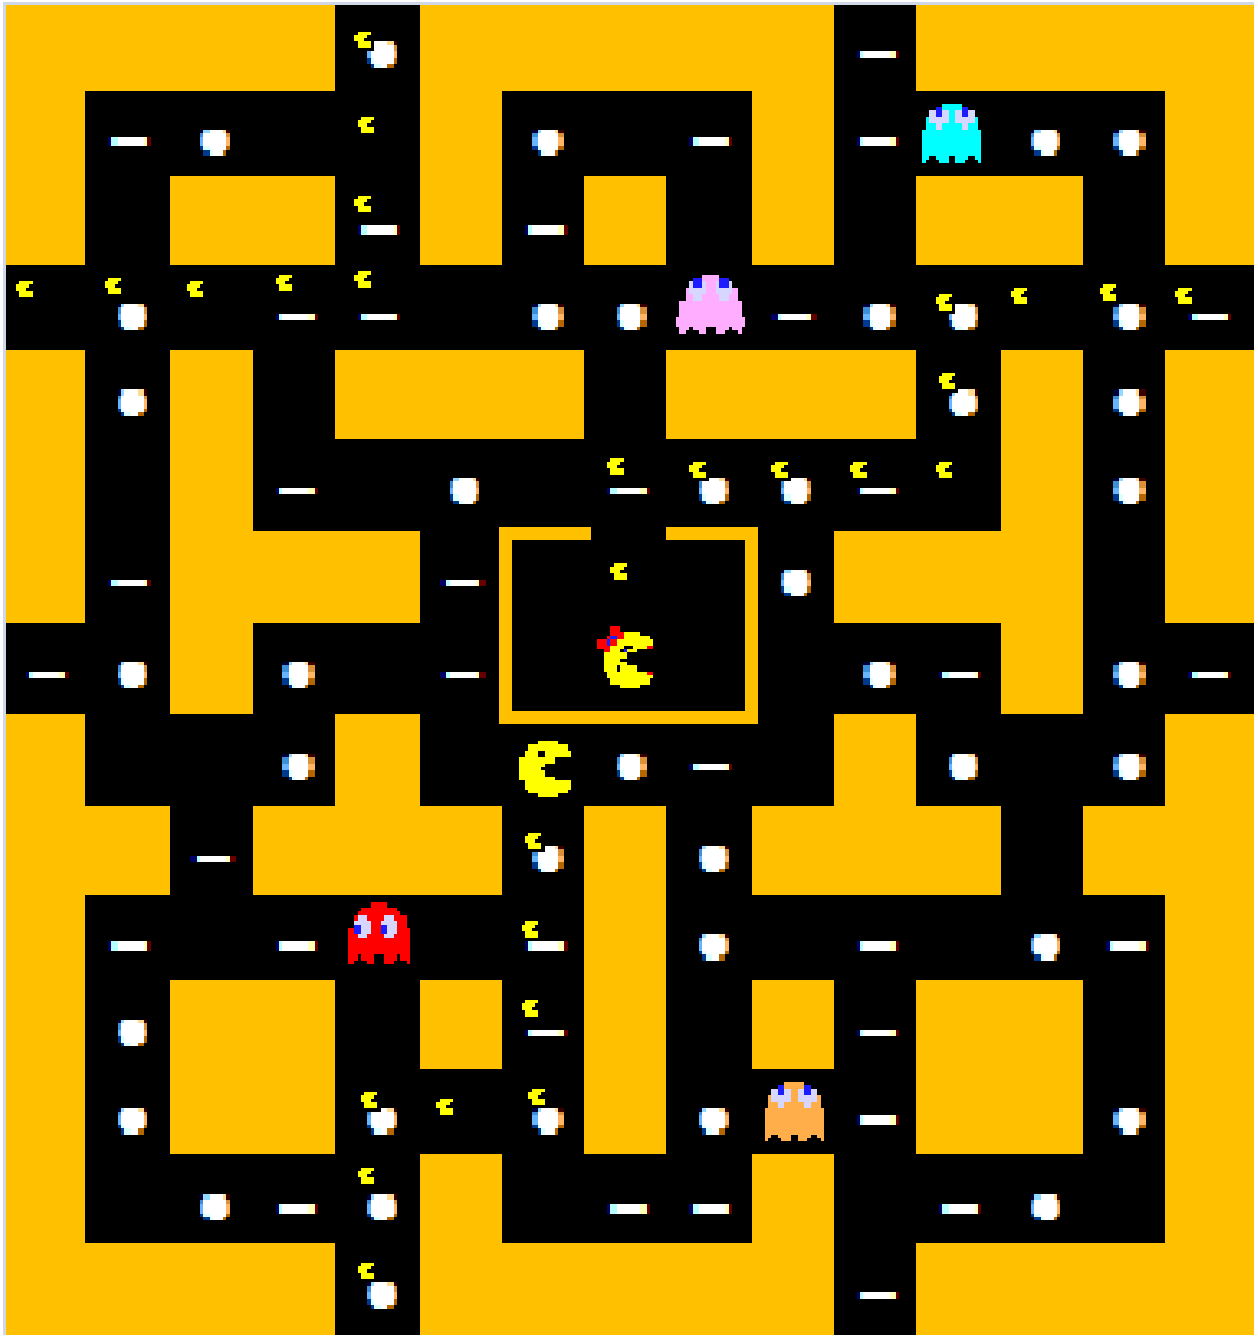
Solution to Trouble in Pac-Land

By Andy Crane


Just follow the instructions and find the shortest path for Pac-Man to reach Mrs. Pac Man. There are a few possible ways to reach her given the constraints, but the one shown below is the shortest.
Note that the pellets are dots and dashes, so convert the pellets along the shortest path to morse code .—. …. —- . –. .. –..– and convert this to the appropriate letters, **PHOENIX**.
