It is the obligation of Central Collections, in accordance with the Voluntary Holding Of Negative Evidence act, to retain any and all documents which reflect poorly on another department within R.E.D.T.A.P.E. Document # 23-5678-908 is being retained as proof of negligence relating to claim #86-A, pertaining to improper safety visuals causing elevated levels of industrial mishaps. Central Collections must track the number of documents of this type and may only handle the original document.
