

# Bad with Names

By: Robert Luan

Your buddy is really, really bad with names. He's made a total of 10 mistakes over the course of your phone conversation. Note the incorrect and correct names in the phrases used, and the differences between them:

Incorrect Name	Correct Name	Length Difference	Letter Difference
Violet	Susan	1	C
Oleksandersohn	Adam	10	N
Schmetterling	Dick	9	O
Thalassa	Harry	3	L
William	Roger	2	E
Radhakrishna	Nancy	7	D
Scheherazade	Jack	8	I
Xiaoping	Joe	5	N
Rutherford	Mary	6	E
Jupiter	Ann	4	I

The length difference refers to the length of the incorrect name minus the length of the correct name. The letter difference refers to the difference between the initial letters of the two names when indexed in alphabetical order. For example, in the first row, the difference between V (22) and S (19) is C (3).

Once you sort the letter differences by the length differences, you find the solution, **CELINE DION**. Apparently, your friend is a fan.
