All the intermediate answers have 5 letters, which correlates with there being 5 binary wheels, and 5 letter dials.

For each answer, place a letter dial on each of the binary wheels so that the solution letter is on top of the wheel's blank space. When all 5 dials are placed, a 5-bit number is produced, which corresponds to a letter using the mapping A = 1, B = 2, C = 3, etc.

When all fifteen answers have been converted to letters, the resulting phrase is THESEAREFOREVER → THESE ARE FOREVER. This is a reference to the James Bond movie "Diamonds Are Forever", which features Las Vegas. Thus, the answer is **DIAMONDS**.
