

Solution to Form 8H

By Justin Marks

The puzzle begins with a list of dates and actors. With a little knowledge of pop culture, you might be able to determine that the title is important. Studio 8H in Rockefeller Center is where “Saturday Night Live” has been taped since 1975. This should lead you to realize that the list is of dates and hosts for the show. (A great website for finding this out would be http://en.wikipedia.org/wiki/List_of_Saturday_Night_Live_hosts_and_musical_guests)

Each show also has a musical guest. There’s also one more interesting piece of information stored in this list of hosts – each has hosted a different number of times. So, ordering by the number of times hosted and taking the first character we get the final answer—**PEARL JAM**.
