

IN-FLIGHT ENTERTAINMENT

By: Josh Oratz

First, note that the movies are listed in alphabetical order, so we probably want another way to order them. Since they're movies, a good bet would be by release date (conveniently already provided). Once those are sorted, looking up each film reveals a common link: each film has an actor from the movie *Airplane!* Indexing into the actor names doesn't provide much, but if you index into the (IMDb listed) character names (as hinted by the captain) by the channel number, you get **COMMAND**.
