Sage Wisdom (1/2)

The answer to Sage Wisdom is obtained by following the movement rules to have Link reach each Sage and escape without being caught by that temple's monster, taking note of which letters the monster is on both when Link obtains the Sage and when Link and the Sage escape the temple.

Going from left to right and top to bottom, the temples correspond with the following letter pairs:

Shadow: DC

Light: AK

Water: AR

Fire: BO

Spirit: AT

Forest: EY

The circular symbols at the bottom of the puzzle are Sage medallions. Nerd cred (or Bing) will allow the savvy solver to match each Sage with his or her medallion. Arranging the letters obtained in each Sage's temple in the order below will spell out the final answer:

Light
AK

Forest
EY

Fire
BO

Water
AR

Shadow
DC

Spirit
AT
