SOLUTION: Time To Explore (1/2)

The three things we are promising for the Express launch event are: **TRAVEL LITE, NO AIRPORT CODES, and A KEYBOARD CAT** (answers to the other pre-event puzzles).

Before solvers solve this metapuzzle, they see a version that looks like this:

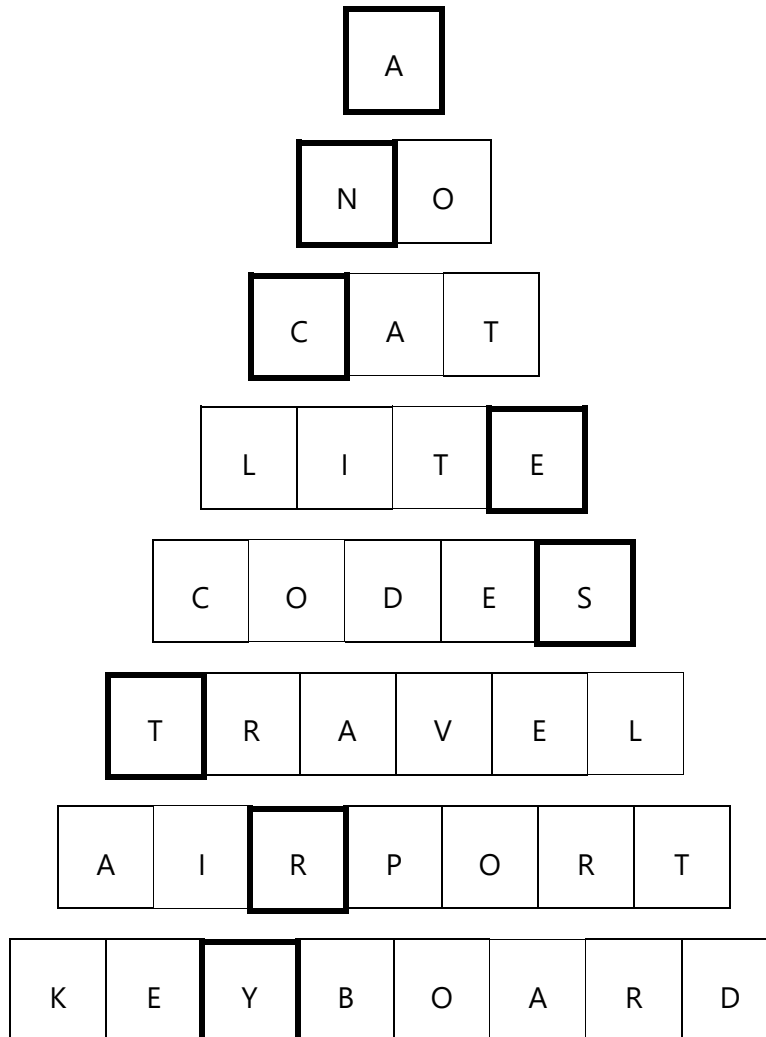

Where the answer is **ANATOLIA**.

From: Philip Z Loh

SOLUTION: Time To Explore (2/2)

When they submit **ANATOLIA**, they are told "Correct! Let's go explore our **ANCESTRY!**" But they entered **ANATOLIA**, not **ANCESTRY**... curious, solvers click the View Puzzle link again, and they are now shown this version:

Turns out something funky was happening and we swapped the space continuum for the time continuum (key plot spoiler/teaser). :)

ANCESTRY is also accepted as an answer (but nobody who can submit the answer should think to submit that answer, unless they heard it from someone else / were told that at the opening presentation).

ANATOLIA or ANCESTRY
