# SOLUTION: Encore

"The time vortex is closing! We'll never be —ered a better chance to make it back home," Colonel Samuel yelled.  
 "●ward, lads, into the breach!"

Encore is solved by identifying the images in the puzzle and realizing that each of the words found this way can be modified to form a new word by adding "on" or "off" to it (either by sound or by spelling).

From there, the words are converted to Morse code, where each line represents a letter. "On"-words become dots, "off"-words become dashes, spelling out H-A-M-I-L-T. Applying the on/off trick one more time yields Hamilton, the final answer.

**HAMILTON**
