# Traveling by wo ormho oles

CPC time travelers,

i'd dreamt of turning the Theory of time travel into Absolute reality all my life. all it took was an Atomic breakthrough combined with Hypothetical technology and i was off to different Dimensions. i sped through the Geometry of Newtonian space from Blackhole to Supernova. however, i have encountered a new Anomaly and am stuck in various Paradoxes of a puzzling Temporal nature – please help me get home at the Speedoflight!
