Travel Lite

During CPC 2016 we experienced an untimely malfunction of the then-flagship Luggatron 3000, leaving us high and dry. Thanks to you, we recovered most of the lost baggage from across time, but one case remains before everything can be squared away. Our crew managed to jury-rig a tracking device and, while we don't know WHERE we're going, we do know WHEN: April 8th, 2017.
