

SOLUTION: Anchovies

Author: Karen Stabile

The "pizza" looks like a dart board (20 wedges with a bullseye in the middle).

Use the numbers on a dart board to get a letter for each creature (1-26). Creatures overlapping wedges are the sum of the two values (as if you had one dart in each). Creatures in the outer ring are doubled. Order the letters by creature size, smallest to largest, to get BOWLER, WICKET, and SPORT, which are all related to CRICKET.

CRICKET
