

SOLUTION: Letters from the Sea

Author: Ryan Dorson

Each message clues a word that sounds like the pluralized form of a letter. For example, "Take by force" clues the word "seize", which sounds the same as "C's". Do this for each of the messages to get the following letters:

R	B
U	S
E	A
Q	B
C	I

To sort these letters, you must realize each of the messages was written by a character in Agatha Christie's *And Then There Were None*. Put these characters in order of their deaths (or faked death) to rearrange the letters and get the final answer.
