

Flash Cards

by Karthika Muthuramu

**ANSWER:
I AM BAFFLED**

This puzzle is printed on the back of the CPC T-shirt.

Notice that from left to right, the fanned-out cards appear in groups by suit. Add up the card values in each suit cluster (A=1, K=13) and convert those sums to letters to spell CAST LUMOS. "Lumos" is the Harry Potter spell for creating light. Entering CAST LUMOS into the answer submission system will prompt you to take a flash photo of the puzzle printed on the T-shirt. The flash photo will highlight certain cards, shown in orange below. Converting these cards to letters will spell the final answer: I AM BAFFLED.
