

Knowledge Is

by Wesley Wigham

**ANSWER:
HOMELAND**

12 flags and a word search, but no word list? Hopefully the title of the puzzle and the first line in the word search clue you into what, exactly you're looking for – a common phrase is Knowledge is POWER, and POWER is what's been found in the word search. Naturally, there's a form of (or rather, word for) power for each language associated with each country associated with each flag below the grid, as with a traditional word search. The remaining unused 8 letters in the grid then spell HOMELAND – the final answer.
