

# Grounds Sweeper

Scattered across the castle grounds are 50 magical crystals. The crystals generate a magical field in the area around where they've been buried and by measuring the field strength throughout the grounds we can attempt to identify which crystals have been buried where. Blue crystals generate a field of strength 1, green crystals generate a field of strength 2.

Here's an example:

2	2	2		4	3
		4	5		
4	7		7		5
	6			6	
6		9		9	4
		6			

→

2	2	2		4	3
		4	5		
4	7		7		5
		6			6
6		9		9	4
			6
