

Quas, Wex, Exort

by Isaac Banner and Wesley Wigham

As implicated by the title, this is a puzzle about the Dota 2 champion Invoker, and the spells that he can cast. Matching his spell triangle against the one offered in the puzzle assigns the following numbers to each spell (and indexing into the spell provides a letter):

- A in COLD SNAP (7)
- O in GHOST WALK (3)
- W in ICE WALL (4)
- A in TORNADO (5)
- D in DEAFENING BLAST (1)
- O in FORGE SPIRIT (2)
- M in EMP (2)
- T in ALACRITY (7)
- R in CHAOS METEOR (11)
- N in SUN STRIKE (3)

Taking the letters from each of the spells "cast" in the puzzle gives the solver "**TORNADO**", which, upon entry, urges the solver to just cast the spell. As implied by the title, the answer is the sequence used to cast the spell.

ANSWER:

**WEXWEXQUAS, WEXQUASWEX, or
QUASWEXWEX**
