

Get in the Ring!

Everett Yip

This puzzle is fairly straightforward – fit words from the clues around the lettered hexagons. Each word is six letters in length, and can start at any one of the six cells and go in either direction (clockwise or counterclockwise). The answers to the clues are the following:

A: ACTION
B: INSANE
C: INJURE
D: LOSERS
E: BEHOLD
F: ENOUGH
G: LOUDER
H: DETAIL
I: TRAINS
J: TALONS
K: ALARMS
L: AVOIDS

The final answer is indicated by the large ring in the middle. The letters in that ring form the word: **GLOVES**.
