

## Mount Rushmore

Carving out of a mountain, workers using special tools, built the unique celebration of the first 150 years of American history called Mount Rushmore. Carved directly in stone, it features busts of four American Presidents: Washington, Jefferson, Lincoln, and Roosevelt. Located near Keystone in the state of South Dakota, Mount Rushmore National Memorial is one of the most unique of the modern wonders.

### Louis' Letters

Nine words are entangled in the grid -- six letters long each. Adjacent characters connect horizontally or vertically but not diagonally, and can wrap around the edges. These words may not be the ones you're looking for but that is where they lead.
