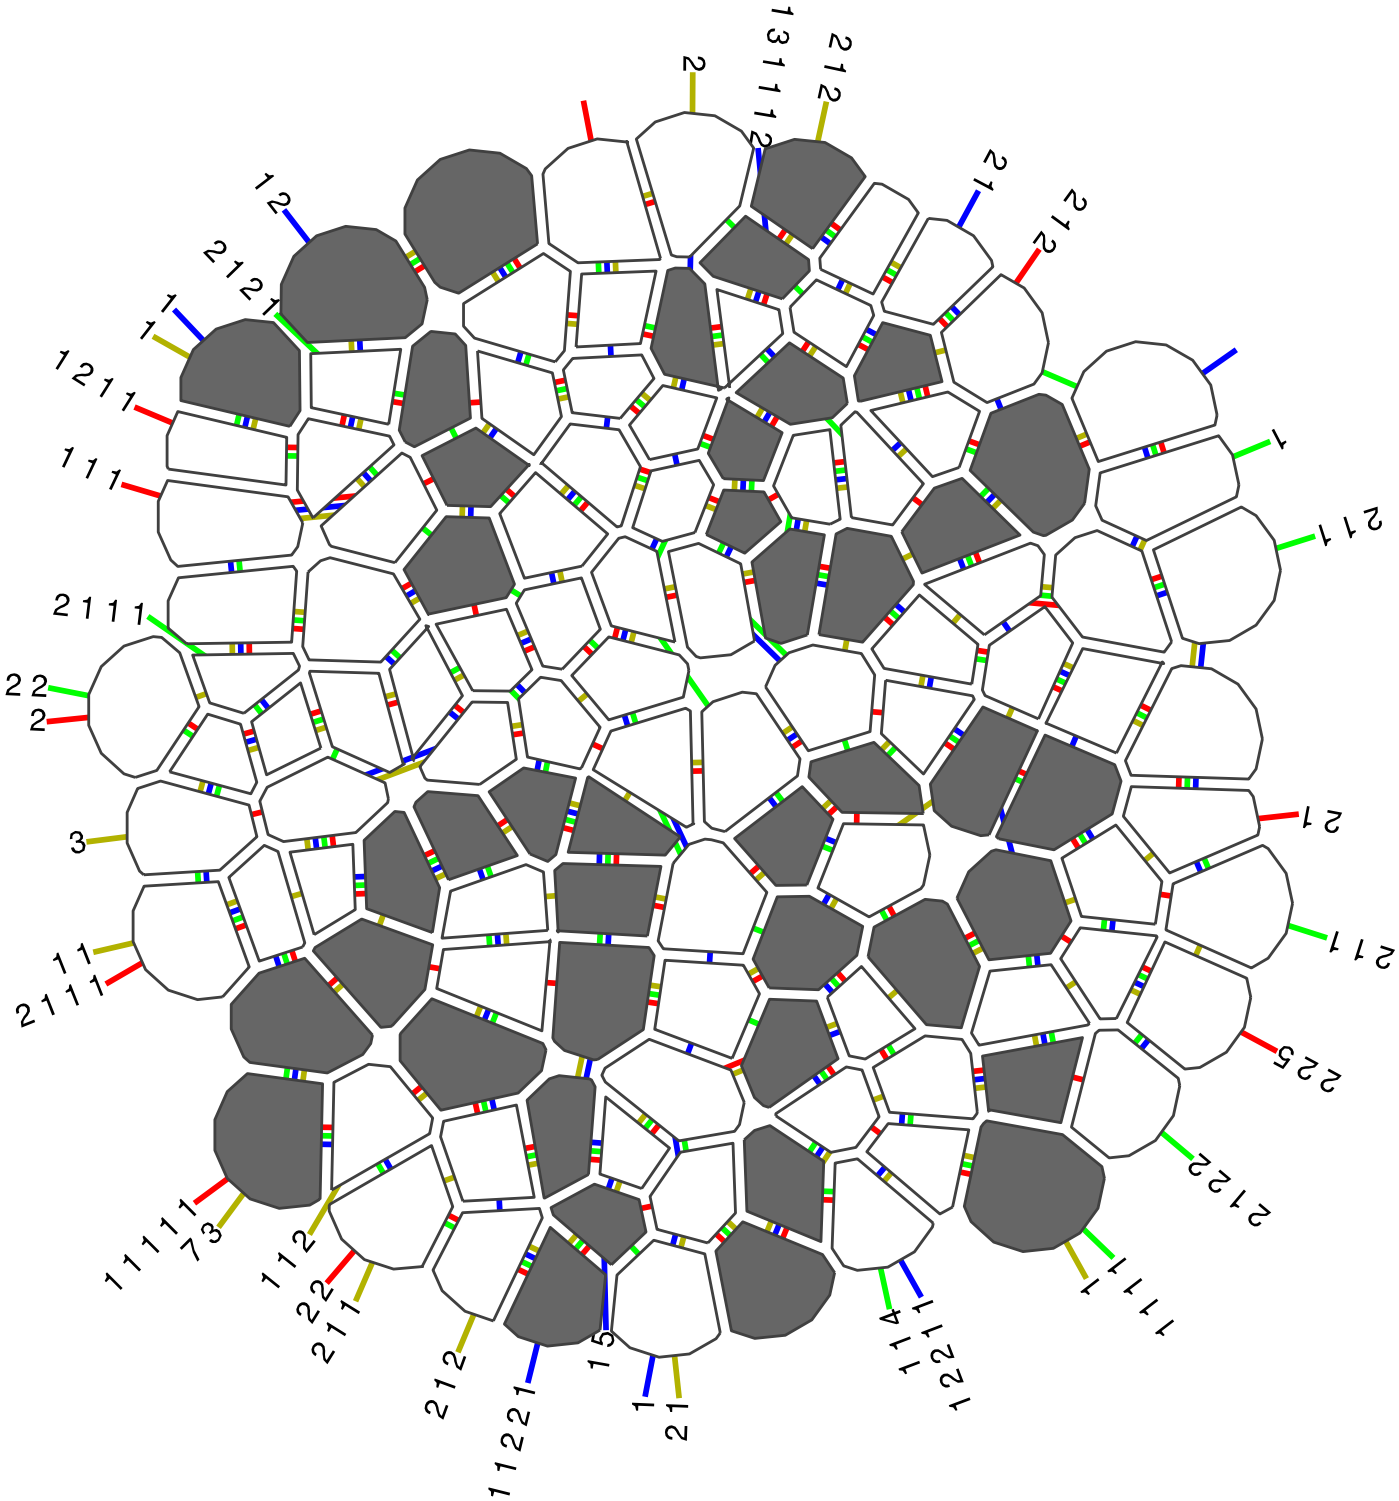
Solution to Ruptured Space-Time

By Jon Howell

This puzzle is a variant of the nonogram, otherwise known as a paint-by-number puzzle. Each colored line describes a path of spaces, some of which you are to fill in. The path's label describes how many consecutive sequences of filled-in spaces there should be along the path, and how many should be in each sequence.

When solved, the puzzle looks like this:



The filled-in spaces spell the answer: **TEAR**.
