It's Silent in Space Solution

By Eric Choi

Step 1: Convert numbers/letters to their corresponding symbols using Unicode (the “**universal encoding**” part in the text).

Step 2: These are all symbols used in pronunciation keys. Find out which word is indicated by the pronunciations.

Step 3: The words have something in common: They all have silent letters. This is confirmed by the title “It’s Silent in ‘Spac[e]’”. Form the answer by taking the silent letter out of each word: **MAGNETS**.
