## Painted Dots

By Tom Bolds

Separate the dots in to groups of 6, 2 dots wide and 3 high. Each of these groups of 6 is a combination of 3 braille letters. Each one is a primary color following the order in the rainbow - a red letter, a yellow letter, and a blue letter.

Doing this to each group of 6 gives the question: WHO IS THE GALACTIC PRESIDENT?  
The answer is: ZAPHOD BEEBLEBROX.
