

Solution to Sequels

By Andy Crane

- To solve this puzzle you need to figure out the movies from their descriptions and find the common actors.
- From the text, actors needed to appear in at least one of the movies in the series playing the same character.
- Actors may have appeared in any two or more of the movies in the series, but may not be in the same exact movies as the other actors connected to that series.
- Once the movies and actors are identified, taking the bold letters in the order specified gives the phrase **GOD-FATHER AND ROCKY**. The person appearing in both of these movies is **TALIA SHIRE**.
