Everyone's a critic now. We're getting tons of letters about the new movie. It can be tough to read because people can be so wrong even when they sound right. Just keep in mind that corrections are important. It doesn't matter who wrote the letter or what they've done.

Dear Studios

It has recently come to my attention that I was not cast in the latest movie. I feel like I have been rebuffed by this industry two many times to mention. I consider myself one of the greatest actors of my generation, so I don't understand how you can be so heartless. People say a lot of things and I heard them say that I should give up but they can't tell me nothing. One day they'll all be shone and it will be plane to see that Jesus walks with me. I'm really happy for you and I'm going to let you finish the movie but I'm writing to complain on principal. This will only make me stronger and when I'm living the good life, you will all notice, even through the flashing lights, because I will not be discrete about it.
